Threeguysnowood.com is not affiliated with any school district or home school; however, as a certified type A Secondary Vocational Educator in Alaska Paul is willing to work with students and schools that participate in project based or standards based education.

History behind the name:

1996-2009 Paul, Guy 1, lived above the Arctic Circle in Barrow, Alaska. When you step outside, there is not a tree in sight for hundreds of miles! Working with the Original Guy he completed his teaching certificate. Always a woodworker, working on a wood lathe became a passion. While in Barrow, he met scientist Dan, Guy 2, whom had lived in Barrow for 23 years. He had 18 years of wood turning experience. Guy 3, Gary, had recently retired from being a wood shop teacher for 20 years. His Gal, not quiet retired thought that Barrow would be an adventure! "Three Guys" worked and played, challenging each other to stretch their project ideas. Although all the "Guys" have recently left Barrow, we bring these many years of education and friendship to the Kenai Peninsula; and, are ready to work with you!
